## Effects of Nutrition and Physical Activity Lifestyle Interventions on Childhood Obesity

Guest Editor:

**Prof. Dr. Ahmad Alkhatib**

College of Life Sciences,  
Birmingham City University,  
Edgbaston, Birmingham B15  
3TN, UK

Deadline for manuscript  
submissions:

**closed (5 February 2025)**

### Message from the Guest Editor

This Special Issue aims to bring research on lifestyle obesity interventions to the forefront. Nutritional eating behaviour and physical activity are the two modifiable factors towards a disease-free life. Interventions aimed at modifying diets, nutritional supplementation, alone or with modifying physical activity or exercise, are a contemporary scientific issue across the lifespan from childhood to older age. Therefore, we welcome submissions in any of these areas, including understanding obesity determinants in early years and intervention physical activity/exercise approaches.

All study types (clinical and randomised trials, physiological, behavioural and psycho-social) and designs (interventions, epidemiology, cross-sectional, modelling) are welcome.
