Deadline for manuscript  
submissions:

**closed (31 August 2018)**

### Message from the Guest Editor

Dear Colleagues,

Food-derived bioactive peptides are increasingly becoming recognized as major food compounds for human health promotion by preventing the occurrence of chronic diseases through their impacts on the gastrointestinal, cardiovascular, immune, and nervous systems. New discoveries on bioactive peptides are important for the maintaining human health and commercial development of the area of functional foods and/or nutraceuticals. This Special Issue covers a wide range of research topics specifically on food-derived bioactive peptides including the in-vitro and in-vivo evaluation of biological activities, bioaccessibility, intestinal absorption, bioavailability, the effect on chronic diseases, and modulating human nutrition.

Dr. Kaustav Majumder

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

## Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
