submissions:

closed (31 December 2018)

Message from the Guest Editor

Increased evidence suggests children with autism spectrum disorder (ASD) are at increased risk for feeding and related dietary concerns compared to children without ASD. Food selectivity—characterized by eating a limited repertoire of food—is the most frequently documented feeding problem in ASD.

The objective of this Special Issue on “Autism and Nutrition” is to showcase state-of-the-art research focusing on feeding, dietary, nutritional status, and GI functioning in children with ASD. Topics of interest include the areas of assessment, characterization, prevention, and intervention. Selected papers may also include investigations of potential biological underpinnings (e.g., the gut microbiome), as well as associated complications (e.g., obesity). The Special Issue is intended to provide a contemporary summary of current knowledge while providing guidance for future research in the field.

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
