Nutrition and Microbiota as Modulators of Immunometabolism

Guest Editors:

Dr. Christoph Reinhardt

Center for Thrombosis and Hemostasis (CTH), University Medical Center of the Johannes Gutenberg-University Mainz, Mainz, Germany

Dr. Tim Hendriks

Department of Laboratory Medicine, Medical University of Vienna, Vienna, Austria

Deadline for manuscript submissions:

closed (31 May 2021)

Message from the Guest Editors

Dear Colleagues,

The intestinal microbiota, as part of the environmental exposome, is strongly influenced by nutrition and plays a key role in health and disease. In this *Nutrients* Special Issue, we summarize current views on the modulating effect of nutrition on host immunity from a microbiome perspective. We highlight recent advances in the mechanisms by which nutrition and diet-induced dysbiosis alter host immune functions and cellular metabolism, thereby influencing disease development. This Special Issue aims to provide insights into the adaptation and maladaptation of organ-specific immune functions, influencing host metabolism, inflammatory phenotypes and tissue remodeling. Lastly, novel concepts for treatment strategies by microbiome modulation are discussed as means of personalized precision medicine.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
