

## Laser–Matter Interaction

Guest Editor:

**Dr. Konstantinos Iliopoulos**

Aix Marseille Univ, CNRS, Centrale  
Marseille, Institut Fresnel,  
Marseille, France

Deadline for manuscript  
submissions:

**closed (10 July 2023)**

### Message from the Guest Editor

This Special Issue will consider recent progress in laser-assisted additive fabrication, nano-LIPSS formation, laser LIFT of biological materials and systems, and more emerging techniques. All contributions on laser interaction with hard, soft, and smart materials, targeting future applications from nano-energy to biomedicine as well as recent progress on fundamental mechanisms are welcome to the Special Issue.

The submissions should concern, but are not limited to, the following topics:

- Lasers in nanotechnology and environmental technology;
- Laser hybrid processing;
- Laser manufacturing for alternative energy sources;
- Laser 3D microstructuring for MEMS, MOEMS, photonic crystals, and photonic applications;
- Laser-induced forward transfer of functional materials for organic electronics and sensing applications;
- Laser-assisted fabrication for sensors;

an Open Access Journal by MDPI

## Editors-in-Chief

### Prof. Dr. Costantino De Angelis

Department of Information  
Engineering, University of  
Brescia, 25123 Brescia, Italy

### Prof. Dr. Thomas Seeger

Institut Fluid- und  
Thermodynamik, Lehrstuhl für  
Technische Thermodynamik,  
Universität Siegen, Paul-Bonatz-  
Straße 9-11, 57076 Siegen,  
Germany

## Message from the Editorial Board

*Optics* (ISSN 2673-3269) aims at establishing *Optics* as a leading journal for publishing high impact fundamental research and applications in optics field with a fast processing time and high quality service. The journal particularly welcomes both theoretical (simulation) and experimental research within our journal's scope. We encourage scientists to publish their experimental and theoretical results in as much detail as possible. So, there is no restriction on the length or pages of the papers. The full experimental details must be provided so that the results can be reproduced. Electronic files and software regarding the full details of the calculation or experimental procedure, if unable to be published in a normal way, can be deposited as supplementary electronic material.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **ESCI (Web of Science)**, **Scopus**, **EBSCO**, and **other databases**.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.1 days after submission; acceptance to publication is undertaken in 6.6 days (median values for papers published in this journal in the second half of 2025).
