

Special Issue

Exclusive Papers Collection of Editorial Board Members and Invited Scholars in Osteology

Message from the Guest Editor

As the Editor-in-Chief of *Osteology*, I am honored to introduce the Special Issue titled “Exclusive Papers Collection of Editorial Board Members and Invited Scholars in Osteology”. This Special Issue aims to highlight pioneering research and advancements in osteology, featuring contributions from our editorial board members and distinguished invited scholars. This collection encompasses cutting-edge studies, rigorous methodologies, and significant findings across various subfields of osteology. The Special Issue includes diverse topics such as bone biology, biomechanics, orthopedic surgery, regenerative medicine, and osteoimmunology. Each paper is published as an open access article, ensuring wide accessibility and dissemination of knowledge. This Special Issue fosters academic collaboration and serves as a resource for researchers, clinicians, and practitioners.

Guest Editor

Prof. Dr. Umile Giuseppe Longo

Department of Orthopaedic and Trauma Surgery, Università Campus Bio-Medico di Roma, Via Alvaro del Portillo, 00128 Rome, Italy

Deadline for manuscript submissions

closed (30 June 2025)

About the Journal

Message from the Editor-in-Chief

The field of osteology is rapidly evolving. Recent discoveries have transformed our understanding of bone metabolism, healing mechanisms, and the management of skeletal disorders. A deeper insight into the biological and clinical processes underlying bone repair and regeneration offers new opportunities to enhance patient care and therapeutic strategies.

Osteology was established with this vision in mind. *Osteology* is an international, peer-reviewed, open access journal dedicated to basic and clinical research in bone science, published quarterly online by MDPI. Supported by a dynamic scientific community, the journal is committed to excellence through a rigorous and transparent peer-review process.

We invite researchers worldwide to submit high-quality clinical and experimental studies to advance innovation and knowledge in osteology.

Editor-in-Chief

Prof. Dr. Umile Giuseppe Longo
