## HIV/AIDS: Epidemiology, Drug Resistance, Treatment and Prevention

Guest Editors:

**Dr. Marta Pingarilho**

**Dr. Mafalda N. S. Miranda**

**Dr. Ana Barroso Abecasis**

### Message from the Guest Editors

In this Special Issue, we want to invite you to submit your research to improve knowledge and spread awareness about this important topic that is still ongoing and can impact many lives.

Both original research and review articles are welcome. Potential topics include, but are not limited to:

Deadline for manuscript  
submissions:

**31 December 2024**

- Epidemiology of HIV;
- Treatment and prevention of HIV;
- HIV drug resistance;
- HIV transmission and dynamics;
- Artificial intelligence (AI) applied to HIV molecular epidemiology, treatment and prevention.

## Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*General Immunology and Microbiology*)
