## Bovine Vaccinia Infection

Guest Editors:

**Prof. Dr. Maria Isabel Guedes**

**Dr. Giliane de Souza Trindade**

1. Laboratório de Vírus,  
Departamento de Microbiologia,  
Instituto de Ciências Biológicas,  
Universidade Federal de Minas  
Gerais, Belo Horizonte, Minas  
Gerais, Brazil

2. Virus Laboratory, Microbiology  
Department, Universidade  
Federal de Minas Gerais, Belo  
Horizonte, Minas Gerais, Brazil

### Message from the Guest Editors

We welcome researchers to submit research or review papers related to all aspects of VACV infection in different hosts, related to its epidemiology, pathogenesis, diagnosis, and prevention and control measures

Deadline for manuscript  
submissions:

**closed (15 November 2021)**

## Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*General Immunology and Microbiology*)
