New Insights into Viral Pathogenesis, Host Immune Responses and Immunotherapies

Guest Editors:

Dr. Dawei Zhou

Department of Pathology, The Ohio State University Wexner Medical Center, Columbus, OH 43210, USA

Dr. Taiwei Li

Seattle Children's Hospital, University of Washington, Seattle, WA 98105, USA

Dr. Theresa Chang

Department of Microbiology and Molecular Genetics, New Jersey Medical School, Rutgers, The State University of New Jersey, Newark, NJ 07103, USA

Message from the Guest Editors

The significance of this special issue of Pathogens lies in potential breakthroughs against all types of viral threats including emerging viruses, like coronaviruses, and persistent challenges such as HIV and herpesviruses. We aim to focus on the new insights into the molecular mechanisms of viral replication, pathogenesis, antiviral innate and adaptive immune responses, as well as effective immune strategies for prevention, treatment, and control of viral diseases.

Deadline for manuscript submissions:

closed (31 December 2025)

School of Engineering Medicine,
Texas A&M University, 2121 West
Holcombe Blvd., Suite 1007,
Houston, TX 77030, USA

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
