Hepatobiliary and Pancreatic Infections

Guest Editor:

Dr. Vishalkumar G. Shelat YLL School of Medicine, NUS, Kent Ridge, Singapore

Deadline for manuscript submissions:

closed (15 May 2023)

Message from the Guest Editor

This Special Issue will cover the following topics:

- 1. Gallbladder: cholecystitis, empyema, percutaneous drainage, cholecystectomy;
- 2. Bile duct: cholangitis, jaundice, endoscopic biliary drainage, percutaneous biliary drainage, biliary surgery;
- 3. Liver: pyogenic liver abscess, recurrent pyogenic cholangitis, hepatolithiasis, hydatid cyst, amoebic liver abscess, parasitic liver diseases;
- 4. Viral hepatitis and its sequalae including carcinogenesis;
- Pancreas necrosis and infected necrosis: imaging perspectives, endoscopic management, surgical care;
- 6. Infections and immunosuppression: liver transplantation, pancreas transplantation;
- 7. Pathogens implicated in hepatobiliary and pancreatic infections, including COVID-19 illness;
- 8. Cost-analysis, tele-health, innovations, and public health implications related to hepatobiliary and pancreatic infections;
- 9. Impact of COVID-19 on clinical care of hepatobiliary and pancreatic infections;
- 10. Any other relevant topics may be considered.

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary & Biomedical Sciences, University of Minnesota, Twin Cities, MN, USA

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*General Immunology and Microbiology*)
