Murine Models of Cytomegalovirus Infection

Guest Editors:

Dr. Niels A. Lemmermann

Institute for Virology and
Research Center for
Immunotherapy (FZI), University
Medical Center of the Johannes
Gutenberg-University Mainz,
55131 Mainz, Germany

Dr. Vanda Juranic Lisnic

Department of Histology and
Embryology and Center for
Proteomics, University of Rijeka,
Faculty of Medicine, Croatia

Message from the Guest Editors

For this *Pathogens* Special Issue, we invite submissions in the form of original research articles and reviews that give new insight into this well-defined model of an important but neglected human pathogen. All research focusing on relevant aspects of the infection are welcome, in particular preclinical models of CMV diseases and antiviral treatment, viral latency and reactivation, as well as investigations of virus-host interactions. We look forward to receiving your contributions.

Deadline for manuscript
submissions:

closed (30 November 2021)

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Hinh Ly

Department of Veterinary &
Biomedical Sciences, University
of Minnesota, Twin Cities, MN,
USA

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*General Immunology and Microbiology*)
