## Porcine Circovirus Infections

Guest Editors:

### Prof. Michele Drigo

Department Animal Medicine,  
Production and Health (MAPS),  
University of Padova, Padova,  
Italy

### Dr. Enrico Brugnera

Research Scientist/Project  
Leader, Department for Farm  
Animals, Division of Swine  
Medicine, University of Zurich,  
Zurich, Switzerland

### Message from the Guest Editors

Studies on porcine circoviruses pathogenesis, immunity and epidemiology are more than warranted to give insights into complex biological mechanisms that cannot be addressed so easily in any of the other animal infection models and, in this Special Issue, we will summarize the current knowledge on porcine circovirus infections and pathogenicity.

Deadline for manuscript  
submissions:

**closed (31 August 2020)**

## Editor-in-Chief

### Prof. Dr. Moriya Tsuji

School of Engineering Medicine,  
Texas A&M University, 2121 West  
Holcombe Blvd., Suite 1007,  
Houston, TX 77030, USA

## Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
