Emerging Infections in Aquatic Animals

Guest Editors:

Dr. Spencer Russell

Department of Fisheries and
Aquaculture, Center for
Innovation in Fish Health,
Vancouver Island University,
Nanaimo, BC V9R 5S5, Canada

Prof. Dr. John S. Lumsden

Department of Pathobiology,
University of Guelph, Guelph, ON
N1G 2W1, Canada

Message from the Guest Editors

This Special Issue of *Pathogens* will emphasize emerging infectious diseases in aquatic animals. We plan to assemble a series of contributions offering a comprehensive view of emerging aquatic animal diseases caused by pathogenic organisms. We invite submissions on the newest advances in pathogen identification, characterization, and detection, host–pathogen interactions, host immune response to infection, and the epidemiology of disease in aquatic animals.

Deadline for manuscript
submissions:

closed (28 February 2023)

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Lawrence S. Young

Warwick Medical School,
University of Warwick, Coventry
CV4 7AL, UK

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics. *Pathogens* is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Microbiology*) / CiteScore - Q2 (*General Immunology and Microbiology*)
