

Special Issue

XXth International Meeting on the Biology and Pathogenicity of Free-Living Amoebae (FLAM 2025)

Message from the Guest Editors

The main aim of this Special Issue is to cover the main advances and remaining challenges in the virulence, treatment, interactions, diversity, biology, and ecology of free-living amoebae presented at the XXth International Meeting on the Biology and Pathogenicity of Free-Living Amoebae (FLAM 2025).

Guest Editors

Dr. Jacob Lorenzo-Morales
Dr. Ismael Castelan-Ramírez
Dr. José De Jesús Serrano-Luna
Dr. Alvaro de Obeso Fernandez Del Valle
Dr. Fernando Lares-Villa
Dr. Maritza Omaña-Molina

About the Journal

Message from the Editor-in-Chief

The worldwide impact of infectious disease is incalculable. The consequences for human health in terms of morbidity and mortality are obvious and vast but, when infections of animals and plants are also taken into account, it is hard to imagine any other disease that has such a significant impact on our lives—on healthcare systems, on agriculture and on world economics.

Pathogens is proud to continue to serve the international community by publishing high quality studies that further our understanding of infection and have meaningful consequences for disease intervention.

Editor-in-Chief

Prof. Dr. Moriya Tsuji

School of Engineering Medicine, Texas A&M University, 2121 West
Holcombe Blvd., Suite 1007, Houston, TX 77030, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, CaPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Infectious Diseases)
