Deadline for manuscript  
submissions:

**25 October 2024**

### Message from the Guest Editor

Dear Colleagues,

Despite the medical and social interventions observed for over a century, tuberculosis (TB)—caused by mycobacterium tuberculosis (MTB)—remains a formidable global health challenge. The absence of an effective vaccine against tuberculosis necessitated the broad administration of antibiotics over the past few decades, which, almost inevitably, has hastened the rise in and spread of drug-resistant (DR) and multi-drug-resistant (MDR) Mtb strains globally.

In light of this, I am thrilled to invite contributions to our Special Issue titled “Antimycobacterial Agents: Combating Drug-Resistant Tuberculosis” in *Pharmaceutics*. While contributions can be diverse, potential topics might include the following:

New chemical or biological antimicrobial methods, such as phage- or host-directed therapy.

Insights into the molecular mechanisms and clinical diagnosis of TB drug resistance.

Technological breakthroughs in studying the interaction between drugs and bacteria.

I eagerly await the opportunity to collaborate and spotlight your significant scientific discoveries.

Dr. Junhao Zhu

## Editor-in-Chief

### Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

## Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

*Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Pharmaceutical Science*)
