submissions:

closed (25 April 2024)

Message from the Guest Editors

Dear Colleagues,

Proteins are some of the most versatile and well-studied macromolecules that can be incorporated into cells and biomaterials for the engineering of biosensors with biomedical applications. Protein-based biosensors and biomaterials have gained special attentions as they offer new opportunities in the development of high-throughput screening platforms for drug discovery, laboratory and point-of-care diagnostics, and theranostic tools. Cell-based biosensors have been widely used in the selection of chemical compounds with new pharmaceutical formulations in protein targeting through high-throughput screening to generate lead drug candidates. Similarly, polymeric and lipid-based nanoparticles and nanovesicles have been developed as nanomedicine as well as biosensing tools for biomedical applications and the goal is to translate these therapies and tools into the clinics. We invite authors to submit original articles and review articles highlighting the latest advances in protein-based biosensors and biomaterials with high sensitivity and specificity as well as potential for miniaturization, mass production, and high-throughput applications.

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química e Bioquímica (CQB), Faculdade de Ciências, Universidade de Lisboa (FCUL), Rua Ernesto de Vasconcelos, Campo Grande, Edifício C8, 5º Piso, 1749-016 Lisboa, Portugal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Pharmaceutical Science*)
