Nature Product as Potential Candidates to Improve Cardio-Metabolic Outcomes in Health and Disease

Guest Editors:

Dr. Chen Huei Leo

Department of Biomedical Engineering, College of Design and Engineering, National University of Singapore, Singapore 117576, Singapore

Prof. Dr. Wei Chen

Institute of Food Bioscience and Technology, Zhejiang University, Hangzhou 310058, China

Deadline for manuscript submissions:

closed (31 August 2024)

Message from the Guest Editors

Dear Colleagues,

Chronic disorders such as diabetes, hypertension, and obesity have increased dramatically in the last decade, not only in developed countries but also in developing countries with growing economies.

This Special Issue invites both reviews and original articles that elucidate the recent progress in natural products and their potential impact on cardio-metabolic health outcomes. In particular, natural products that have the potential to serve as drug candidates for cardio-metabolic diseases will be highly interested in this Special Issue. The collection of manuscripts will be published as a Special Issue of *Pharmaceuticals*.

Topics include but are not limited to:

1. Cellular targets and biological processes of natural products;
2. Drug repurposing and/or synergism with natural products;
3. Novel extraction technique and characterization of bioactives from natural products;
4. Upcycling of natural products derived from food waste or unutilized plant parts;
5. Effects of natural products and their mechanism of action in various cardio-metabolic diseases.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Pharmaceutical Science*)
