### Message from the Guest Editors

Dear Colleagues,

Depression and anxiety are common psychiatric illnesses of global impact. Novel therapeutics are desirable among patients who continue to experience delayed or low responses, adverse effects, and unsatisfactory remission rates with the available drugs. Understanding the complex neurobiology of these psychiatric illnesses is among the prerequisites to the comprehensive assessments of biomarkers or molecular targets, pharmacokinetics, and the clinical efficacy, safety, acceptability, and tolerability of novel antidepressants and anxiolytics. This Special Issue accepts contributions covering new compound/drug candidates, research results, current understandings of depression and anxiety, and updates on pharmacotherapy options and other related topics.

## Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

*Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Pharmaceutical Science*)
