Torun, Poland

Deadline for manuscript  
submissions:

**25 October 2024**

### Message from the Guest Editors

Dear Colleagues,

The challenges in modern medicinal chemistry are related to the substantial problems of today's society. Environmental pollution, global warming, stress, and unhealthy lifestyles are among the factors that contribute to the development of widespread conditions. The design of new medicinal molecules and bioactive materials is a time-consuming process that includes procurement, synthesis, and evaluations of their bioactivity. Organochalcogen chemistry is significant in medicinal chemistry and modern organic synthesis, combining diversified biological and catalytical potential with a green chemistry perspective.

This Special Issue aims to collate innovative research articles and reviews that will present new biologically active sulfur-, selenium-, and tellurium-containing molecules and materials that facilitate the development of novel therapeutics and solutions for the current problems in chemical biology, material sciences, and medicine.

Dr. Agata Pacuła-Miszewska

## Editor-in-Chief

### Prof. Dr. Amélia Pilar Rauter

Departamento de Química e Bioquímica (DQB) e Centro de Química Estrutural (CQE), Institute of Molecular Sciences, Faculdade de Ciências, Universidade de Lisboa, Lisboa, Portugal

## Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

*Pharmaceuticals* is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Pharmaceutical Science*)
