Development of Specific Dosage Form: Wound Dressing

Guest Editors:

Message from the Guest Editors

Prof. Dr. Mihaela Ghica

Dear Colleagues,

Dr. Madalina Georgiana Albu Kaya

Prof. Dr. Lacramioara Popa

Prof. Dr. Cristina Elena Dinu-Pirvu Wound healing is a deeply particular dynamic various phase process, involving multiple cellular and molecular mechanisms for tissue repair. The synergy of biocompatibility and cellular proliferative actions of these wound dressing compounds is expressed in the healing process acceleration, enhancing structural, functional, and cosmetic properties of the novel grown tissue.

Deadline for manuscript submissions:

25 December 2024

This Special Issue has the main objective of presenting the most recent research regarding the new original tailored wound dressings, enriched with a myriad of natural and synthetic compounds as potential therapeutic and delivery systems for the treatment and management of various cutaneous lesions

Message from the Editor-in-Chief

Because of your expertise in the field of drug sciences, I kindly invite you to consider publishing your current work, in the form of a research article or a review, in the open access electronic journal *Pharmaceuticals*.

Pharmaceuticals is characterized by an active editorial board and a dynamic editorial staff. Manuscripts are peer-reviewed and a final decision is provided to authors within 4–6 weeks after submission. Papers are published on the web immediately after acceptance. For details on the submission process or any other matter, please do not hesitate to contact us.

We hope to handle your contribution to *Pharmaceuticals* soon.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Pharmaceutical Science*)
