Message from the Guest Editors

Dear Colleagues,

This Special Issue invites international researchers in the area of new strategies to induce targeted protein degradation and modulate autophagy in therapeutic, authentic models. We welcome original research articles and reviews focused on the identification of natural and synthetic pharmacological leads from HTS campaigns, on the rational design and structure–activity relationships of small molecules, alternative systems to deliver pro-drugs, and preclinical evaluation of promising leads.

I look forward to receiving your contributions.

Prof. Dr. Giovanni Piccoli
Dr. María Dolores Pérez-Carrión
Dr. Fabrizia Claudia Guarnieri

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
