Message from the Guest Editors

This Special Issue focuses on protein-based nanoparticulate systems and their diverse biomedical applications, enabling disease prevention, diagnosis and therapy. Being natural, biocompatible and biodegradable, proteins have been used as an alternative to synthetic polymers to formulate nanoparticles for the targeted delivery of both therapeutic and diagnostic agents. Protein-based nanoparticles can be prepared via different green and mild nanoprecipitation methods. Various proteins, such as albumin, globulin, gelatin and gliadin, have been employed to fabricate nanoparticles for cancer treatment.

Deadline for manuscript submissions:

10 August 2026

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
