Farmacia y Tecnología
Farmacéutica, Facultad de
Farmacia, Universidade de
Santiago de Compostela, 15782
Santiago de Compostela, Spain

Deadline for manuscript
submissions:

31 July 2024

Message from the Guest Editors

The application of smart technologies in the pharmaceutical field has increased notably over the last few years and demonstrates the potential to improve the production efficiency and quality of different pharmaceutical products. In this way, Artificial Intelligence tools such as machine learning have proven useful in the development of thermosensitive hydrogel formulations, microparticles, or nanoparticles enabling the controlled release of drugs. On the other hand, the implementation of smart manufacturing technologies such as 3D or, more recently, 4D bioprinting has allowed the obtention of functional scaffolds that are able to replace damaged tissues; this application is of great interest in regenerative medicine.

This Special Issue aims to highlight the current progress in the application of smart pharmaceutical technologies to develop formulations, or biomedical products useful for controlled drug delivery or tissue engineering applications. Original articles and reviews with a focus on this topic are welcome.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Department of Pharmaceutics,
Ernest Mario School of
Pharmacy, Rutgers University,
Piscataway, NJ 08854, USA

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
