Message from the Guest Editor

Dear Colleagues,

Over the past few decades, a variety of approaches for efficient drug delivery systems have been developed via targeting, increasing bioavailability, as well by improving the pharmacological profile of drugs. In particular, the application of nanomaterials as drug carriers or nanodelivery systems has brought significant advancements in the field of drug delivery research. For example, the design of smart functional nanocarriers in drug delivery systems for therapeutic application is attracting an ever-increasing amount of attention for use in targeted treatments and controlled releases.

Researchers are invited to submit articles to this Special Issue to provide up-to-date insights into the smart and advanced drug delivery nanosystems which are improving therapeutic efficiency.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
