Message from the Guest Editor

Dear Colleagues,

The eye itself is an organ that presents unfavourable anatomical and physiological barriers to drug delivery, particularly in the posterior segment. However, nanotechnology has been shown to overcome the challenges of ocular drug delivery, improving both efficacy and precision in the treatment of ocular diseases. These systems allow for the prolonged retention and better targeting of drugs to specific therapeutic sites and are increasingly overcoming the related barriers. In this work, we explore how different drug-loaded nanotechnology systems are characterised physicochemically, and we perform ex vivo and in vivo assays to improve therapeutic outcomes in ocular diseases and their treatment efficacy.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
