Message from the Guest Editors

Dear Colleagues,

This Special Issue will review the evidence of TDM of different antimicrobials in non-“classic” special populations. Numerous studies favoring the TDM of new drugs such as betalactams, linezolid or daptomycin have been published, but most have been performed in ICU patients, and limited data are available for those who are not severely ill, such as pediatric patients, those with hepatic dysfunction, or those with underweight.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
