### Message from the Guest Editors

Dear Colleagues,

Excipients based on lipid materials have attracted considerable interest in the design of dosage forms. Lipids are often low-melting-point materials and poorly water-wettable too. Hence, they are amendable to several manufacturing technologies and are used in several types of dosage forms. This Special Issue hopes to present novel innovations in lipid-based dosage forms and applications involving lipids in manufacturing processes. Research on various technologies to produce lipid-based dosage forms are welcome.

We look forward to your submission for this Special Issue.

Best regards,

Prof. Dr. Paul W S Heng  
Prof. Dr. Yishen Zhu

## Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
