Deadline for manuscript  
submissions:

**closed (31 October 2023)**

### Message from the Guest Editors

Nanotechnology used in topical formulations can increase skin permeation and improve drug delivery to skin structures such as follicles, creating a deposit of the substance in the skin. In addition to improving the drug/active effect, the use of nanotechnology can promote dose reduction, decrease side effects, protect the substance from degradation, and improve the product stability and sensorial properties. Therefore, we invite research articles, reviews, communications and case studies related to the application of nanotechnology in skin diseases including, but not limited to, mycoses, bacterial infections, melasma, skin hyperpigmentation, acne, dermatitis, psoriasis, rosacea and skin cancer.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Patrick J. Sinko

Department of Pharmaceutics,  
Ernest Mario School of  
Pharmacy, Rutgers University,  
Piscataway, NJ 08854, USA

## Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
