Inorganic Biomaterials for Drug Delivery

Guest Editors:

Dr. Ana Borrego-Sánchez

Center for Human Technologies,
Italian Institute of Technology
(IIT), Genoa, Italy

Dr. Fátima García-Villén

Faculty of Pharmacy, University
of the Basque Country
(UPV/EHU), Vitoria-Gasteiz, Spain

Deadline for manuscript
submissions:

closed (31 December 2023)

Message from the Guest Editors

We are pleased to invite you to contribute a full article, short communication, or review article to a Special Issue entitled “Inorganic Biomaterials for Drug Delivery”.

This Special Issue calls for studies on the design and formulation of novel dosage forms, including their characterization and drug release evaluation, as well as their biocompatibility and bioavailability (in vitro and/or in vivo tests). We also extend the invitation to researchers investigating the adsorption and release of drugs from excipients using computational calculations. This strategy provides important information at the atomistic level through static or dynamic calculations of the complexes.

Our final scope is to provide an overview of the latest advances in the field of pharmaceutical technology, including all steps from the design to the application of drug delivery systems, and future directions of the use of inorganic excipients for medical applications.

We look forward to receiving your contributions.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
