Message from the Guest Editors

Dear Colleagues,

In the last few years, we have witnessed extraordinary research efforts in the field of ocular drug delivery. The development and optimization of new drug delivery platforms and, concurrently, the improvement of in vitro and ex vivo models for their evaluation, have made it possible to address old and new unmet needs. Many aspects remain to be investigated, particularly the fulfilment of non-invasive or, at least, minimally invasive approaches for the treatment of both anterior and posterior segment diseases.

Therefore, the aim of this Special Issue is to collect original research papers and review articles that address the use of nano- and micro-formulations, hydrogels, stimuli-responsive systems and physical and chemical enhancers for more effective and better accepted ophthalmic delivery.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
