### Message from the Guest Editor

Dear Colleagues,

This issue will be a collection of frontier research papers focusing on exploring the newest knowledge, research and translation in non-invasive approaches related to

- pharmaceutical, chemical, physicochemical and biophysical non-invasive technologies for improved therapies, diagnostics and imaging in all clinical areas of application
- needle-free administration methods using novel dosage forms, nanotechnology and devices
- research on dermal, transdermal, pulmonary, ocular, otic, vaginal, rectal, buccal and oral administration methods and potential solutions to the challenges of the barriers in these routes of administration
- non-invasive delivery systems for small molecules, proteins, peptides, DNA, RNA and vaccines
- critical appraisals and comparisons of benefits and reliability of non-invasive technologies, including modelling and simulation approaches
- evaluation of patient benefits of non-invasive technologies in hospital and home settings

I hope that you will accept the invitation to be part of this exciting Special Issue.

## Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
