Deadline for manuscript submissions:

closed (31 October 2022)

Message from the Guest Editors

Dear Colleagues,

The search for new formulations for cancer therapy to achieve improved bioavailability, efficacy, and safety constitutes the holy grail of anticancer drug research. In the fight against cancer, in recent years, researchers have put tremendous effort into evaluating the potential of drug carriers for this purpose. Noticeably, in the case of chemotherapeutic agents, drug encapsulation within carriers greatly contributes to reducing their frequent non-specific side effects that often lead to treatment discontinuation. Despite several carrier-based formulations achieving clinical translation, promising possibilities to develop second-generation formulations that address unmet advanced cancer-related medical challenges and ultimately enable the development of not only safer but also more efficacious drug delivery systems still remain. To this end, the harmonized integration of researchers from diverse multidisciplinary fields (namely, formulation scientists, cancer pathologists, clinical doctors) is required to foster the development of clinically translatable novel formulations for cancer therapy.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
