Deadline for manuscript submissions:

closed (3 December 2021)

Message from the Guest Editor

Medication adherence is the prerequisite for effective pharmacotherapy. Therefore, multiple interventions have been designed to improve it, addressing its major components of initiation, implementation, and discontinuation. Identifying the major drivers of medication adherence and comparing the effectiveness of adherence interventions in real-world settings are just a couple of benefits of using large medical data repositories for adherence research.

This Special Issue aims to advance our understanding of medication adherence with the potential broader use of big data. A wide range of studies adopting this approach are welcome: from viewpoints describing new concepts and studies setting new standards, through pharmacoepidemiological studies in a regional, national, or international context, to pharmacoeconomical analyses.

- medication adherence
- patient compliance
- primary non-adherence
- non-adherence
- big data
- eHealth
- mHealth
- pharmacoepidemiology
- pharmacoeconomics

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Department of Pharmaceutics, Ernest Mario School of Pharmacy, Rutgers University, Piscataway, NJ 08854, USA

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
