Deadline for manuscript submissions:

closed (30 November 2022)

Message from the Guest Editors

Dear Colleagues,

We are pleased to invite you to contribute to this Special Issue on the formulation and characterization of novel micro/nano droplets/bubbles and their interaction with acoustic waves in the medical field.

This Special Issue aims to provide a collection of the newest research achievements in the use of gas-loaded structures in the field of therapy, diagnosis and theranostics.

Since the development of ultrasound contrast agents, based on gas-filled micro-sized bubbles, as enhancers of the capabilities of ultrasounds for imaging modality, these structures have increasingly become a subject of interest for several researchers in different medical areas. In particular, the formulation of nano-sized and stable bubbles/droplets is still a challenge for several researchers in the development of new imaging, tracing and analytical techniques, operating in deeper sites of the body. Furthermore, these structures can interact with focused ultrasounds in a localized area, inducing the sonoporation phenomenon, with an increase in cell membrane permeability, making them useful in therapy and theranostic fields.

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
