closed (15 December 2017)

Message from the Guest Editors

Because of the presence of various static, dynamic and metabolic ocular barriers, the delivery of drugs to the targeted sites of action in the eye is often very challenging and requires interdisciplinary approaches involving basic, applied and clinical sciences. In recent years, increasing progress has been made to develop novel and safe materials, devices and methods to overcome ocular barriers to deliver therapeutic agents to targeted sites in the eye. This Special Issue invites original technical papers and reviews to discuss the broad scope of recent developments, future directions, possible challenges, and regulatory and ethical issues in advancing ocular drug delivery for clinical and commercial translation. The focus is on, but not limited to biomaterials; nanotechnology; personalized ophthalmology; theranostics; ocular disease targets; biomarkers; ocular transport; ocular pharmacokinetics; industrial development; regulatory and ethical considerations; clinical studies; intellectual property; and commercialization.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Department of Pharmaceutics,
Ernest Mario School of
Pharmacy, Rutgers University,
Piscataway, NJ 08854, USA

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)
