

## Special Issue

# Micro/Nanostructures and Micro/Nanodevices for Tissue Engineering and Biomedicine

### Message from the Guest Editors

Nanotechnology is a rapidly evolving multidisciplinary science dealing with nanoscale materials, providing a cutting-edge platform for research in tissue engineering and biomedicine, where the unique traits of distinct nanostructures permit the design of biomaterials with augmented properties. Nanoscience offers new wisdom in drug design, biosensors and chemical sensors, the targeted delivery of therapeutics, diagnosis, and theranostics in a controlled fashion for personalized health care, offering incredible benefits as chemotherapeutic agents, imaging agents, and immunotherapeutic agents for treating or diagnosing several chronic human diseases. This Special Issue will focus on the Micro/Nanostructures and Micro/Nanodevices for Tissue Engineering and Biomedicine, aiming to improve the regeneration of impaired tissues and organs using various distinct nanostructures or devices with micro/nanostructures-based architectures in drug delivery, imaging, and theranostics, but not confined to the above.

### Guest Editors

Prof. Dr. Venkatesan Renugopalakrishnan

1. Department of Chemistry and Chemical Biology, Northeastern University, Boston, MA 02138, USA

2. Center for Life Sciences, Boston Children's Hospital, Harvard Medical School, Boston, MA 02115, USA

Dr. Vivekanandan Palaninathan

Graduate School of Interdisciplinary New Science, Bio-Nano Electronics Research Centre, Toyo University, Kawagoe 350-8585, Japan

### Deadline for manuscript submissions

closed (20 April 2024)

## About the Journal

### Message from the Editor-in-Chief

*Pharmaceutics* (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceutics and biopharmaceutics. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Patrick J. Sinko  
Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the first half of 2025).
