

Special Issue

Novel Drug Delivery Strategies That Target Specific Proteins to Promote Effective Therapeutics

Message from the Guest Editors

In this Special Issue, we invite researchers to submit original research articles and reviews that cover various aspects of novel drug delivery strategies to target specific proteins in diseases. We welcome contributions that address the following topics:

Molecular design, expression, purification, characterization, safety, and efficacy of drugs aimed to target proteins for therapy;

Design and development of novel experimental and theoretical methods for drug discovery to target disease-related proteins, with an emphasis on the mechanisms of drug interference with protein-driven biological pathways;

Peptide-based degraders such as PROTACs and peptins that can induce the degradation of target proteins by hijacking the ubiquitin-proteasome system or disrupting protein-protein interactions.

We hope that this Special Issue will provide a comprehensive overview of the current state of the art and future directions in targeting proteins to alleviate diseases using drug discovery technology.

About the Journal

Message from the Editor-in-Chief

Pharmaceutics (ISSN 1999-4923) is an online open access journal on the science and technology of pharmaceuticals and biopharmaceuticals. The scientific community, the wider community and the general public have unlimited and free access to the content as soon as a paper is published; this open access to your research ensures your findings are shared with the widest possible audience. Please consider publishing your impressive work in this high quality journal. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Patrick J. Sinko

Ernest Mario School of Pharmacy, Rutgers, The State University of New Jersey, William Levine Hall, Room 225C, 160 Frelinghuysen Road, Piscataway, NJ 08854-8020, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Pharmaceutical Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
