Deadline for manuscript  
submissions:

**closed (30 April 2024)**

### Message from the Guest Editors

Dear Colleagues,

The focus of this Special Issue, “Digital Health in Pharmacy Practice and Education”, is to present on the rapidly evolving field of digital health in pharmacy.

Digital systems have revolutionised global healthcare and how health professionals provide patient care in their day-to-day practice. Digital health education for students and practitioners is now a key focus area for pharmacy. Advancements in the use of digital health technologies and data science in health, including innovative practices, models and approaches, both in clinical settings as well as in education, are instrumental in shaping the present and the future of healthcare.

We invite researchers to submit their work on topics across all areas of Pharmacy Education and Practice within the context of digital health. Review articles, original research papers, and communications are all welcome.

Dr. Chiao Xin Lim

Dr. Vincent Chan

Prof. Dr. Kerryn Butler-Henderson

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance.

The scientific community and the general public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.6 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2023).
