submissions:

closed (31 August 2020)

Message from the Guest Editor

Hypertension is a major cause of morbidity and mortality, and hypertension causes an estimated 395,000 deaths in the US each year: one out of every six deaths. Hypertension is second only to smoking as a modifiable cause of death in the US. Poor blood pressure control increases the risk of myocardial infarction, stroke, and death and is often due to delays in diagnosis and treatment intensification.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance.

The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 3.7 days (median values for papers published in this journal in the first half of 2024).
