### Message from the Guest Editors

Pharmacists' job satisfaction measures practitioners' self-assessed happiness at work. It has been positively associated with labor market outcomes such as job performance and productivity, motivation, organizational commitment, and patient safety and satisfaction. It has been negatively correlated with job turnover, absenteeism and tardiness, and complaints and grievances against management.

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance.

The scientific community and the general public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 3.7 days (median values for papers published in this journal in the first half of 2024).
