Message from the Guest Editors

The right to physical and mental health is a universal human right. However, vulnerable patients and people that are medically under-served have higher rates of disease and ill-health and find accessing health and screening services challenging. In these cases, people's experience with health services is variable, with many experiencing disadvantage or discrimination as a result of their status. People belonging to often marginalised groups (e.g. people with disabilities, homeless, home-bound, black and minority ethnic communities) experience significant inequitable access to care. This results in them experiencing poorer health outcomes when compared to the general population.

Deadline for manuscript submissions:

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance.

The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 3.7 days (median values for papers published in this journal in the first half of 2024).
