Message from the Guest Editor

We invite you to share your experiences, evaluations, innovations, or any service evaluation or research you have undertaken in relation to the role of medication safety in pediatric patients. Various approaches exist for care in a variety of healthcare settings, including acute care, ambulatory care, community practice, and the development of systems or processes in the medication use process. We hope this Special Issue will inspire pharmacists and researchers to share their own practices and adopt new approaches to innovate to improve pediatric drug safety.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance.

The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.6 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2023).
