Otago, 9054 Dunedin, New
Zealand

Deadline for manuscript
submissions:

closed (1 June 2021)

Message from the Guest Editor

We are currently living in uncertain times that are having a substantial impact on pharmacy education and practice. These have resulted in increased demands on our profession that may have negative impacts related to stress and burnout. At the same time, pharmacy educators and students have been tasked with restructuring programs into online environments that have also affected motivation for teaching and learning. More than ever before, the profession needs to rely on its motivation, grit, and resilience to overcome these barriers, in order to provide the best patient care possible. Exploring new ways to develop these traits, as well as coping strategies when things go wrong, should be a priority for the profession moving forward.

We invite you to share your expertise, including your experiences and research, pertaining to motivation, grit, and resilience in pharmacy education and practice. This issue will serve as a foundation for future research in the field and will also provide practical solutions and lessons learned for understanding and development of motivation, grit, and resilience in pharmacy education and practice settings.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Pharmacy* (ISSN 2226-4787). *Pharmacy*, an international scientific open access journal on pharmacy education and practice, is published by MDPI online quarterly. *Pharmacy* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance.

The scientific community and the general public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 3.7 days (median values for papers published in this journal in the first half of 2024).
