

## Research, Development and Application of Raman Scattering Technology

Guest Editors:

### Dr. Haisheng Su

Innovation Laboratory for Sciences and Technologies of Energy Materials of Fujian Province (IKKEM), College of Chemistry and Chemical Engineering, Xiamen University, Xiamen 361005, China

### Dr. Enming You

Fujian Provincial Key Laboratory of Oceanic Information Perception and Intelligent Processing, School of Ocean Information Engineering, Jimei University, Xiamen 361021, China

Deadline for manuscript submissions:

**30 November 2024**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue is designed to provide a comprehensive overview of cutting-edge research in the field of Raman Scattering Technology. We enthusiastically invite researchers to contribute original state-of-the-art articles that push the boundaries of Raman spectroscopy research. Submissions may encompass a broad array of topics, including but not limited to:

- Surface-enhanced and tip-enhanced Raman spectroscopy;
- Coherent Raman spectroscopy;
- Resonance Raman spectroscopy;
- Biological applications of Raman spectroscopy;
- Theoretical and computational advances of Raman spectroscopy;
- Raman sensing;
- Raman optical activity.
