Deadline for manuscript  
submissions:

**closed (1 October 2024)**

### Message from the Guest Editor

This Special Issue on Photonic Integrated Circuits, Sensors, and Instrumentation contains the extended papers from the 7<sup>th</sup> International Conference on Optics, Photonics and Lasers (OPAL' 2024), 15–17 May 2024, Palma de Mallorca (Balearic Islands), Spain (<https://opal-conference.com/>). The event is organized by IFSA, a professional nonprofit association serving academia and industry since 1999.

The topics of interest include:

- photonic sensors;
- photodetectors;
- photonic integrated circuits (pics);
- photonic integration and packaging;
- photonic crystals;
- silicon photonics;
- biophotonics;
- microwave photonics;
- quantum photonics;
- terahertz photonics;
- photonic instrumentation engineering;
- applications of photonic technologies.
