Message from the Guest Editor

Dear Colleagues,

This Special Issue is dedicated to scientific developments in photodynamic therapy and the photodiagnosics of oncological and non-oncological diseases. Original articles, reviews, and individual clinical cases are invited, particularly those which reveal the mechanisms of interaction between light radiation and biological tissues containing photosensitizers. Studies that investigate the immunological aspects of PDT are especially welcome.

Prof. Dr. Victor Loschenov

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Photonics* (ISSN 2304-6732). *Photonics* is an online open access journal covering both the fundamental and applications of optics and photonics. *Photonics* strives to provide an avenue to allow authors to disseminate their scientific findings—both theoretical/ simulations and experimental works—in highly accessible peer-reviewed journal publications. The manuscript in *Photonics* will be handled with quick turnaround production processing time. We welcome authors to submit their manuscripts for publications in *Photonics*. Our goal in *Photonics* is to enable fast dissemination of high impact works to the scientific community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, Ei Compendex, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q2 (Instrumentation)
