Education, Free University of
Bozen-Bolzano, 39042 Brixen-
Bressanone, Italy

Deadline for manuscript
submissions:

closed (31 December 2023)

Message from the Guest Editor

Dear Colleagues,

Taxonomic studies are the basis for understanding the variability of plant diversity. They are essential not only as a basis for basic knowledge, but also for addressing biodiversity conservation strategies, better understanding evolutionary processes, and so on.

Therefore, it is a pleasure to announce this new Special Issue aimed at collecting featured papers on plant taxonomy, based both on morphological and molecular analysis.

Prof. Dr. Robert Philipp Wagensommer

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
