Message from the Guest Editors

Dear Colleagues,

Medicinal and aromatic plants have served as sources of flavors, fragrances, medicines, perfumes, and aromatic oils, throughout human history. In this special issue, we focus on phytochemical analysis, biological activities, and organoleptic properties, of aromatic and medicinal plants and their constituents. We look forward to receiving your original research or timely review articles.

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
