Nutrients Uptake, Transport, and Function in Plant Metabolism

Guest Editors:

Prof. Dr. Fernando Lidon

NOVA School of Science and Technology, Campus da Caparica, NOVA University of Lisbon, 2829-516 Caparica, Portugal

Prof. Dr. Maria Manuela Abreu da Silva

Department of Earth Sciences, Faculty of Sciences and Technology, New University of Lisbon, Lisbon, Portugal

Deadline for manuscript submissions:

20 December 2024

Message from the Guest Editors

Dear Colleagues,

Each type of plant is unique and has an optimum nutrient range as well as a minimum requirement level, which can trigger deficiency or toxicity. In this Special Issue, we aim to delve into the interactions between micro- and macronutrients in plants. The scope of this Special Issue encompasses a wide array of topics, namely the implications of the photosynthetic and respiratory metabolisms and of the photoassimilate mobilization to fruits and grains.

Prof. Dr. Fernando Lidon Prof. Dr. Maria Manuela Abreu da Silva *Guest Editors*

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and communitys on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
