Message from the Guest Editor

Dear Colleagues,

In recent decades, pharmaceuticals based on phytocomplexes have garnered interest from health professionals as an alternative to conventional drugs. Recent research has focused on the optimization of herbal medicines and nutritional supplements. Current studies employing new methods of analysis are disclosing new information about the composition of phytocomplexes, which is essential for improving their therapeutic effect, reducing their side effects, and increasing their safety. This Special Issue of *Plants* aims to present the most recent results of research on plant extracts and their biological activities.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Dilantha Fernando
Department of Plant Science,
University of Manitoba, Winnipeg,
MB R3T 2N2, Canada

Message from the Editor-in-Chief

Plants is an open access journal which provides an advanced forum for research findings in areas related to plant function, its physiology, biology, taxonomy, stresses, and its interactions with other organisms. It publishes original research articles, reviews, reports, conference proceedings (peer reviewed full articles) and communications. In original research papers, it is important that full experimental details are provided. We also encourage timely reviews and commentaries on topics of interest to the plant research community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, AGRIS, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Plant Sciences) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
